Facilities and Services Staff Consultative Committee (SCC)

Terms of Reference

Current membership of the SCC is drawn from each of the areas within the Division together with Section Heads and Management representatives. Term of membership of elected representatives is currently twelve (12) months with the opportunity for re-election. Elections are carried out in January of each year.

The Division's SCC was formed initially in 1994 as a consequence of several recommendations contained in a report of the ANU Council's Working Party on Participation in Decision-making (Paper 2529/1993). However, the Division did have a similar group established titled “The Head's Advisory Group”. Membership was expanded in late 1996 to include Section Heads.

The main purpose and goal of the Division's SCC is to provide an additional means of communication and information sharing between management and staff of the Division.
